TECH SKILLS

JavaScript

Python

AWS

REST-API

Git & Github

Node.js

Unity

Kotlin

Springboot

React

Java

SOFT SKILLS

Team Collaboration

Time-Management

Critical Thinking

Effective Communication

Adaptability/Flexibility

EDUCATION

B.S Computer Science

Western Governor University

03/2026 - Present

High School Diploma

Penn Foster School

GPA: 3.8

TECH-WORK EXPERIENCE

Full Stack Web Developer

Code the Dream

02/2025 - 11/2025

Remote

Achievements/Tasks

- Built **web applications** using JavaScript, React, and Node.js.
- Strengthened understanding of **frontend architecture** and state management.
- Practiced **version control**, debugging, and project-based development.

AWS Cloud Engineer

United Airlines

01/2024 - 06/2024

Chicago IL

Achievements/Tasks

- **Migrated customer data to AWS**, ensuring names, birthdates, and other info matched existing profiles through DynamoDB.
- Applied **AWS tools** including SQS, Docker, Java/Springboot, and CI/CD workflows to support the CRM cloud rewrite.
- Worked **independently** on tasks while **collaborating** with the team to improve internal systems.

TECH-WORK EXPERIENCE

Android App Developer

United Airlines

05/2023 - 01/2024

Chicago IL

Achievements/Tasks

- Learned Kotlin and developed in Android Studio to **build and debug apps**, focusing on frontend UI behavior and backend integration.
- Implemented **data handling** from backend databases, fetching and displaying dynamic content in the app.
- Explored mobile app **architecture** and design patterns, including state management, navigation, and property delegation.

Software Engineer Intern

i.c.stars

01/2023 - 05/2023

Chicago IL

Achievements/Tasks

- Designed and built an **Augmented Reality (AR) mobile feature** using Unity and C#, allowing field agents to overlay interactive status indicators on airport kiosks and computers.
- Gained experience in **web development fundamentals** (HTML, CSS, JavaScript) and **frontend frameworks** (Angular, TypeScript).
- Supported **backend and data workflows**, working with SQL databases, basic MongoDB concepts, and data entry pipelines.
- Developed strong **professional skills**, including teamwork, time management, technical communication, and self-representation.
